

Shark's Teeth

Special points of interest:

- SHRC turned 13 this year
- New Web-site is coming along

13 Years of Sporadic Hamming

The Sporadic Ham Radio Club celebrated it's 13th year in operation. Of course we've been very sporadic in our activities in keeping with the club's charter.

2013 found most of the members really busy with real-life and very little on-air club activity occurred. We still kept up with the bureaucracy of meetings, licensing, going to a ham-fest or two, etc. Maybe we'll even get to have our breakfast get-together in the fall.

There hasn't been a newsletter in a while and I can only promise that there will be sporadic editions as time and motivation permit.. Let me know if you like this template. It's amazing to me when I look at the web-site logs and see how often the old newsletters get accessed.

All for now...

New Web Site

SHRC has changed hosting providers and as part of the move will be re-doing the club web-site. Since the original site was done using Microsoft FrontPage which was discontinued by Microsoft in 2006, the new site will be ASP.Net. Check the site once in a while to see what the shark has been up to.

Not everything that we originally had is planned to transition over to the new site. Guest-books were always a problem and the past two years have seen very little sign-in activity on ours.

If there's something you'd really like to see added, let me know.

New K2FA.Org web-site is under construction
